

ENGR98 GROUP STUDY

Catalog Data: ENGR 98: Group Study (Credit Units: 1 to 4). Group study of selected topics in engineering. Prerequisite: consent of instructor. May be repeated for credit. (Design units: varies)

Textbook: Varies with each Professor

References: Varies

Coordinator: John C. LaRue

Relationship to Program Outcomes:

Course Outcome/Performance Criteria:

Varies with each Professor. The coordinator will determine the specifics of the course each time it is offered. It offers the opportunity to meet special needs and interests of a group of students.

Prerequisites By Topic: Varies

Lecture Topics: Varies

Class Schedule: Meets for 1 hour each week for 10 weeks.

Computer Usage: Varies

Laboratory Projects: Varies

Professional Component: Contributes toward the Engineering Topics and/or Design experience for Engineering majors.

Design Content Description

Approach: Varies with each Professor

Lectures: %

Laboratory Portion: %

Grading Criteria: Varies with each Professor

Estimated ABET Category Content:

Mathematics and Basic Science: ____ credit units or ____%

Engineering Science: ____ credit units or ____%

Engineering Design: ____ credit units or ____%
