How to: Getting Involved in Research

Faculty

All professors at UCI are involved in research. Find what research interests you and contact the faculty member directly. Professors often look for interest and eagerness to learn, no prior experience necessary!

1. Visit: https://engineering.uci.edu/
2. Select your Department
3. Click "Faculty" to see a list of professors, their research interests, and their contact information

UROP

The Undergraduate Research Opportunities Program connects students with on-campus research opportunities through various programs such as MDP, SURP, and SURF.

Visit: http://urop.uci.edu

Calit2

Engineering students are offered a space to do research at Calit2 on campus. A list of projects and how to get involved can be found on their website

Visit: http://www.calit2.uci.edu/
